

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

STATISTICS OF WATER POWER EMPLOYED IN MANUFACTURING IN THE UNITED STATES. <i>By Prof. George F. Swain.</i>	Page. 5
--	------------

## TABLES AND MAPS.

Table	I. Proportional amounts of power in different sections of the United States. . . . .	10
do.	II. Relative amounts of steam and water power in different sections of the United States. . . . .	11
do.	III. Power per square mile in different sections of the United States. . . . .	11
do.	IV. Distribution of water power among some selected industries. . . . .	28
do.	V. Cost of steam power. . . . .	31
do.	VI. Cost of water power. . . . .	33
do.	VII. Increase of power between 1870 and 1880. . . . .	35
do.	VIII. Percentage of the total amount of steam and water power, of the total amount of water power, and of the total amount of steam power for each State and Territory; also the rank of each State in regard to amount of power used. . . . .	37
do.	IX. The total power, the water power, and the steam power per square mile in each State and Territory, with the rank of each in regard to amount of total power, water power, and steam power per square mile. . . . .	38
do.	X. Distribution of power in different sections of the United States. . . . .	39
do.	XI. Slope of streams. . . . .	39, 40, 41, 42
do.	XII. Table of the flow of streams. . . . .	43
do.	XIII. Developed and undeveloped powers in the United States in 1880. . . . .	44
Map 1.	Map of the United States, showing the location of large concentrated water powers. . . . .	22
do. 2.	Map showing excess of steam over water power. . . . .	25
